Casa Sana ZELLSCHUTZ

Description:

Food supplement with vitamins, minerals, enzymes and flavonoids

Casa Sana CELL PROTECTION offers a unique combination of specially selected vitamins and minerals that protect our body cells from oxidative stress.

Oxidative stress is the term used to describe a condition in which so-called "**free radicals**" are formed to a high degree. These are aggressive oxygen compounds that **damage our body cells** and increase the **risk of certain diseases**, such as cardiovascular disease.

Environmental toxins, pollutants in food, medicines, smoking and excessive alcohol consumption are considered causes of the formation of free radicals and thus of oxidative stress.

Antioxidants are considered **antagonists of free radicals** and can partially neutralise them. These radical scavengers are produced in the body itself, but since their number is not sufficient, they should be supplied daily from the outside.

The **vitamins C, E, riboflavin (vitamin B2)** and the valuable mineral **zinc** contained in Casa Sana ZELLSCHUTZ help to **protect** the body's cells **from oxidative stress**. In addition, important **flavonoids** are added to the preparation, which belong to the **secondary plant substances** and also have an antioxidant effect.

The important B vitamins **thiamine (vitamin B1), niacin (vitamin B3), vitamin B6 and vitamin B12** support both the **energy metabolism** and the **nervous system**.

The unique formula is rounded off by the addition of the three important **digestive enzymes**

alpha-amylase, lactase and lipase, which support our digestive system in breaking down

important nutrients.

Ingredients: L-lysine hydrochloride, hydroxypropylmethylcellulose (capsule shell), citrus bioflavonoids, ascorbic acid (vitamin C), zinc gluconate, D-alpha tocopherol acetate (vitamin E), alpha-amylase, nicotinamide (vitamin B3), passion flower extract, lactase, lipase, cyanocobalamin (vitamin B12), pyridoxine hydrochloride (vitamin B6), riboflavin (vitamin B2), thiamine mononitrate (vitamin B1).

Age group: Casa Sana ZELLSCHUTZ is recommended for all persons from the age of 12.

Recommended intake: Take 1 capsule 3 times daily with sufficient liquid.

Free from yeast, lactose and gluten.

Nutritional information:

	Amount per daily portion (3 capsules)	% NRV*
Vitamins
