

ES

Instrucciones de uso:

Al ponerse el soporte de tobillo cuidar de que los perfiles laterales estén perfectamente ajustados a la pierna.

Ajutar la cinta a la planta del pie según las necesidades del paciente para una estabilización perfecta. Colocar la cinta ancha inferior alrededor de las bandeletas y fijarla.

Colocar la cinta superior alrededor de las bandeletas y fijarla. En caso necesario, ajustar la cinta inferior para poder fijar la órtesis con firmeza.

A medida que va disminuyendo la tumefacción del tobillo, puede aflojarse el soporte. Reajústese en caso necesario.

Empleo del componente de gomaespuma:

Quitar el componente gomaespuma estirando de abajo hacia arriba.

Al colocar de nuevo los cojines de gomaespuma cuide de que estén colocados exactamente en el lugar original. Con el colocado correcto asegura Vd. que los bordes de plástico estén recubiertos.
